MOLDURARTE

MAIS DE 60 ANOS DE EXPERIÊNCIA

MOLDURARTE: OVER 60 YEARS OF EXPERIENCE
MOLDURARTE: MÁS DE 60 AÑOS DE EXPERIENCIA

Há mais de seis décadas, a Moldurarte tem sido um nome de destaque na produção de molduras de madeira de alta qualidade, tanto no Brasil como no mercado internacional. Ao longo desse tempo, a empresa se consolidou como uma referência em inovação e lançamento de tendências no setor. Com a utilização de equipamentos modernos e tecnologia de ponta, conta com um parque fabril abrangendo mais de 45.000 m² de área construída, e com uma equipe de mais de 300 colaboradores. Isso, aliado à sua impressionante capacidade produtiva de 16 milhões de metros lineares por ano, solidifica a posição da Moldurarte como uma das maiores produtoras de molduras em madeira da América Latina.

For over six decades, Moldurarte has been a leading name in the production of high-quality wooden frames, both in Brazil and in international markets.

Throughout this time, the company has established itself as a benchmark in innovation and trendsetting within the industry. With the use of modern equipment and cutting-edge technology, Moldurarte operates an industrial complex spanning more than 45,000 m² of built area and employs over 300 professionals.

This, combined with its impressive annual production capacity of 16 million linear meters, solidifies Moldurarte's position as one of the largest wooden frame manufacturers in Latin America.

Desde hace más de seis décadas, Moldurarte es un nombre destacado en la producción de molduras de madera de alta calidad, tanto en Brasil como en el mercado internacional.

A lo largo de este tiempo, la empresa se consolidó como una referencia en innovación y en el lanzamiento de tendencias dentro del sector. Con equipos modernos y tecnología de vanguardia, cuenta con un parque industrial de más de 45.000 m² de superficie construida y con un equipo de más de 300 colaboradores.

Sumado a su impresionante capacidad productiva de 16 millones de metros lineales por año, esto consolida la posición de Moldurarte como uno de los mayores fabricantes de molduras de madera en América Latina.

COLHEMOS O QUE PLANTAMOS

WE REAP WHAT WE SOW
COSECHAMOS LO QUE SEMBRAMOS

Em seu compromisso ambiental, a Moldurarte está comprometida com os princípios de sustentabilidade, onde investe na produção responsável de madeira de pinus. Com seis fazendas abrigando mais de 2.500.000 árvores cuidadosamente plantadas e manejadas, com cerca de 64% dessas áreas preservadas com espécies nativas.

Esse compromisso visa garantir um suprimento sustentável de madeira para suas unidades industriais, mantendo padrões de produtividade, qualidade e responsabilidade ambiental e social.

Assim, a Moldurarte não apenas se destaca como líder na produção de molduras de madeira de alta qualidade, mas também como uma empresa que demonstra, na prática, seu compromisso com a sustentabilidade em todos os aspectos de suas operações. Econômico, ambiental e social, esse compromisso é a essência da Moldurarte.

In its environmental commitment, Moldurarte is dedicated to the principles of sustainability, investing in the responsible production of pine wood.

The company maintains six farms with more than 2,500,000 carefully planted and managed trees, with approximately 64% of these areas preserved with native species.

This commitment aims to ensure a sustainable supply of wood for its industrial units, while upholding high standards of productivity, quality, and environmental and social responsibility.

Thus, Moldurarte stands out not only as a leader in the production of high-quality wooden frames but also as a company that demonstrates, in practice, its commitment to sustainability in every aspect of its operations.

Economic, environmental, and social — this commitment is the very essence of Moldurarte.

Fiel a su compromiso ambiental, Moldurarte se guía por los principios de la sustentabilidad, invirtiendo en la producción responsable de madera de pino.

Posee seis fincas con más de 2.500.000 árboles cuidadosamente plantados y manejados, con aproximadamente un 64% de esas áreas preservadas con especies nativas.

Este compromiso busca garantizar un suministro sostenible de madera para sus unidades industriales, manteniendo altos estándares de productividad, calidad y responsabilidad ambiental y social.

De este modo, Moldurarte no solo se destaca como líder en la producción de molduras de madera de alta calidad, sino también como una empresa que demuestra en la práctica su compromiso con la sustentabilidad en todos los aspectos de sus operaciones.

Económico, ambiental y social: ese compromiso es la esencia de Moldurarte.

SIMULADOR VIRTUAL DE QUADROS

Transforme a experiência de escolha da moldura com o nosso simulador de quadros virtual.

Em poucos cliques, visualize sua obra em diferentes molduras e combinações, tudo em tempo real e com total precisão.

Crie uma conta para salvar suas simulações, importe imagens do ambiente para resultados ainda mais realistas e compartilhe seus projetos personalizados com seus clientes de forma prática por WhatsApp, e-mail ou outras plataformas digitais.

Virtual Frame Simulator

Transform the framing experience with our virtual frame simulator.

In just a few clicks, you can visualize your artwork in different frames and combinations, all in real time and with total accuracy.

Create an account to save your simulations, import images of your environment for even more realistic results, and share your personalized projects with clients easily via WhatsApp, email, or other digital platforms.

Simulador Virtual de Cuadros

Transforma la experiencia de elección de la moldura con nuestro simulador de cuadros virtual.

En pocos clics, visualiza tu obra en diferentes molduras y combinaciones, todo en tiempo real y con total precisión.

Creá una cuenta para guardar tus simulaciones, importa imágenes del ambiente para obtener resultados aún más realistas y compartí tus proyectos personalizados con tus clientes de manera práctica a través de WhatsApp, correo electrónico u otras plataformas digitales.

Acesse o simulador e descubra tudo o que você pode fazer.

Go to the simulator and discover all you can do.

Ingresa el simulador y descubre todo lo que puede hacer.

PORTAL DE RELACIONAMENTO

Um portal desenvolvido especialmente para os clientes Moldurarte. Nele você terá acesso a inúmeras ferramentas para planejar, agilizar e aumentar a sua produtividade, como por exemplo fazer novos pedidos e acompanhá-los, consultar estoques, notas fiscais, rastreamento das entregas, consulta e impressão de títulos, além de ter acesso exclusivo aos vídeos da Escola Moldurarte e a materiais de marketing.

A portal developed especially for Moldurarte clients

Here, you will have access to a wide range of tools designed to plan, streamline, and boost your productivity — such as placing and tracking new orders, checking stock availability, accessing invoices, tracking deliveries, viewing and printing payment documents, as well as enjoying exclusive access to Moldurarte School videos and marketing materials.

Portal de Relacionamento

Un portal desarrollado especialmente para los clientes de Moldurarte. En él podrás acceder a múltiples herramientas para planificar, agilizar y aumentar tu productividad: realizar y seguir pedidos, consultar stock, facturas, seguimiento de entregas y emisión de comprobantes de pago. También tendrás acceso exclusivo a los videos de la Escuela Moldurarte y a materiales de marketing.

Para seu primeiro acesso entre em contato pelo telefone:

CANALETAS

FLOATER FRAME MOULDINGS
MOLDURAS CANALETAS

As Canaletas são a escolha ideal para quem busca destacar suas obras com elegância e um visual contemporâneo.

Com design que mantém o quadro afastado das laterais, criam um sutil espaço de respiro ao redor da imagem, transmitindo leveza e sofisticação.

Essa estrutura permite diferentes propostas de montagem — desde o efeito de borda infinita, em que a moldura se integra visualmente à obra, até a sensação de flutuação, que valoriza cada detalhe da composição. Um resultado que une técnica, estética e modernidade em perfeita harmonia.

Floater frames are the ideal choice for those looking to highlight their artwork with elegance and a contemporary look.

With a design that keeps the artwork slightly detached from the edges, they create a subtle breathing space around the image, conveying lightness and sophistication.

This structure allows for different mounting styles — from the infinity edge effect, where the frame visually blends with the artwork, to the floating effect, which enhances every detail of the composition.

The result is a perfect harmony of technique, aesthetics, and modernity.

Las molduras canaletas son la elección ideal para quienes buscan resaltar sus obras con elegancia y un estilo contemporáneo.

Con un diseño que mantiene el cuadro separado de los laterales, crean un sutil espacio de respiro alrededor de la imagen, transmitiendo ligereza y sofisticación.

Esta estructura permite diferentes propuestas de montaje: desde el efecto de borde infinito, donde la moldura se integra visualmente con la obra, hasta la sensación de flotación, que realza cada detalle de la composición.

Un resultado que combina técnica, estética y modernidad en perfecta armonía.

PASEPARTOUT

O Passepartout da Moldurarte possui o miolo de celulose tratada, que é de pH neutro, livre de ácido e conta com reserva de carbonato de cálcio. Isso não apenas embeleza o quadro, mas também serve para separar a obra de arte do vidro, proporcionando uma camada adicional de proteção à peça emoldurada. Além disso, ele acrescenta um toque de criatividade e originalidade à imagem.

O Passepartout pode ser cortado manualmente, com equipamentos eletrônicos ou com estilete, permitindo cortes retos de 90 graus ou chanfrados a 45 graus, atendendo às suas necessidades de design e emolduramento com versatilidade.

MATBOARD

Moldurarte's Passepartout (Matboard) features a treated cellulose core with a neutral pH, acid-free, and buffered with calcium carbonate. This not only beautifies the frame, but also separates the artwork from the glass, providing an additional layer of protection for the framed piece. It also adds a touch of creativity and originality to the image. The Passepartout (Matboard) can be cut manually, with electronic equipment, or with a utility knife, allowing straight 90-degree cuts or 45-degree beveled cuts to meet your design and framing needs with versatility.

PASEPARTOUT

El Passepartout de Moldurarte cuenta con un núcleo de celulosa tratada, de pH neutro y libre de ácido, con reserva de carbonato de calcio. Esto no solo embellece el cuadro, sino que también separa la obra de arte del vidrio, proporcionando una capa adicional de protección para la pieza enmarcada. Además, aporta un toque de creatividad y originalidad a la imagen. El Passepartout puede cortarse manualmente, con equipos electrónicos o con cuchilla, permitiendo cortes rectos a 90° o biselados a 45°, brindando versatilidad para satisfacer sus necesidades de diseño y enmarcado.

FOAM BOARD MOLDURARTE

O Foam Board é ideal para aplicações que exigem qualidade, praticidade e um excelente padrão de acabamento. As placas são livres de ácido e oferecem excelente resistência à umidade, garantindo a preservação e a valorização das suas obras. Disponível em três modelos que atendem diferentes necessidades.

Foam Board tradicional: disponível na cor branca (espessura de 3 mm) e nas cores branca e preta (espessura de 5 mm), é a opção perfeita para fundos de quadros, porta-retratos e trabalhos artísticos em geral.

Foam Board com adesivo: com superfície autocolante, facilita a aplicação de imagem e dispensa o uso de cola, otimizando o processo de montagem. Disponível na cor branca com 5 mm de espessura.

Foam Board PVC: com estrutura mais rígida de alta durabilidade é ideal tanto para ambientes internos quanto externos. Disponível na cor branca com 3 mm de espessura.

Todos os modelos são uma solução versátil que alia estética, funcionalidade e proteção.

MOLDURARTE FOAM BOARD

Foam Board is ideal for applications that require quality, practicality, and an excellent finish standard. The boards are acid-free and offer excellent moisture resistance, ensuring the preservation and enhancement of your work. Available in three models to meet different needs.

Traditional Foam Board: available in white (3 mm thickness) and in white and black (5 mm thickness), it is the perfect option for frame backings, picture frames, and general art projects.

Adhesive Foam Board: with a self-adhesive surface, it makes image application easier and eliminates the need for glue, optimizing the assembly process. Available in white with 5 mm thickness.

PVC Foam Board: with a more rigid, highly durable structure, it is ideal for both indoor and outdoor environments. Available in white with 3 mm thickness.

All models are a versatile solution that combines aesthetics, functionality, and protection.

FOAM BOARD MOLDURARTE

El Foam Board es ideal para aplicaciones que requieren calidad, practicidad y un excelente nivel de acabado. Las placas son libres de ácido y ofrecen gran resistencia a la humedad, garantizando la preservación y valorización de sus obras. Disponible en tres modelos que se adaptan a diferentes necesidades.

Foam Board tradicional: disponible en color blanco (3 mm de espesor) y en blanco y negro (5 mm de espesor), es la opción perfecta para fondos de cuadros, portarretratos y trabajos artísticos en general.

Foam Board con adhesivo: con superficie autoadhesiva, facilita la aplicación de imágenes y elimina la necesidad de pegamento, optimizando el proceso de montaje. Disponible en color blanco con 5 mm de espesor.

Foam Board PVC: con estructura más rígida y alta durabilidad, es ideal tanto para ambientes interiores como exteriores. Disponible en color blanco con 3 mm de espesor.

Todos los modelos ofrecen una solución versátil que combina estética, funcionalidad y protección.

Melhor resultado e segurança na aplicação

*Best result and application security.

GRAMPOS

Os grampos são acessórios essenciais na montagem de molduras para quadros, espelhos e porta-retratos. Eles desempenham um papel fundamental ao garantir o fechamento preciso e a segurança do fundo, dos quadros, proporcionando um acabamento impecável enquanto a cola de junção Moldurarte realiza sua cura.

STAPLES

Staples are essential accessories in assembling frames for pictures, mirrors, and photo frames. They play a key role by ensuring precise closure and securing the back of frames, delivering a flawless finish while Moldurarte's joint adhesive cures.

GRAPAS

Las grapas son accesorios esenciales en el montaje de molduras para cuadros, espejos y portarretratos. Cumplen un papel fundamental al asegurar el cierre preciso y la fijación segura del fondo y del cuadro, proporcionando un acabado impecable mientras el adhesivo de unión de Moldurarte completa su secado.

Screws not included
Supports up to 22 lbs.

K094 - "U" 4 agujeros – 22x37mm
Sin tornillos – soporta hasta 10 kg

ARAME TRANÇADO 3 FIOS DE AÇO INOX

Carretéis de 1Kg com aproximadamente 90 metros

2.2 lbs reels with approximately 300 linear feet

Carreteles de 1 kg con aproximadamente 90 metros

Descomplicando a tarefa de pendurar seu quadro, nosso produto é construído com três fios de aço inoxidável torcidos, facilitando o posicionamento e assegurando uma apresentação visual mais atraente. Com capacidade de suportar até 70Kg de peso, nossos rolos de 1Kg oferecem aproximadamente 90 metros de fio para atender às suas necessidades.

BRAIDED WIRE STAINLESS STEEL 3 WIRES

Making it easier to hang your frame, our product is made with three twisted strands of stainless steel, facilitating positioning and ensuring a more attractive visual presentation. With a capacity to support up to 70 kg, our 1 kg rolls offer approximately 90 meters of wire to meet your needs.

ALAMBRE TRENZADO 3 HILOS DE ACERO INOXIDABLE

Simplificando la tarea de colgar su cuadro, nuestro producto está construido con tres hilos de acero inoxidable trenzados, facilitando el posicionamiento y asegurando una presentación visual más atractiva. Con capacidad para soportar hasta 70 kg, nuestros rollos de 1 kg ofrecen aproximadamente 90 metros de hilo para satisfacer sus necesidades.

FITA ATG TRANSFERÍVEL

O adesivo transferível é uma escolha versátil e indispensável em várias aplicações na construção de quadros. É especialmente recomendado para a fixação segura de passepartout em superfícies como Foam Board, Eucatex ou MDF, e seu uso é otimizado quando combinado com o Aplicador Scotch ATG 700.

ATG TRANSFER TAPE

The transfer tape is a versatile, indispensable choice for various applications in frame construction. It is especially recommended for securely attaching Passepartout to surfaces such as Foam Board, Eucatex, or MDF, and its use is optimized when combined with the Scotch ATG 700 Applicator.

ATG CINTA ADHESIVA DE TRANSFERENCIA

El adhesivo transferible es una opción versátil e indispensable en diversas aplicaciones para la construcción de molduras. Se recomienda especialmente para la fijación segura de passepartout sobre superficies como Foam Board, Eucatex o MDF, y su uso se optimiza cuando se combina con el Aplicador Scotch ATG 700.

FITA DE PAPEL KRAFT

A fita de papel kraft é conhecida por sua alta aderência e resistência, o que a torna uma escolha ideal para acabamentos de quadros e para empacotamento em geral. Sua aplicação manual é simples, resultando em um acabamento limpo e impecável para os quadros.

KRAFT PAPER TAPE

Kraft paper tape is known for its high adhesion and strength, making it an ideal choice for frame finishing and general packaging. Its manual application is simple, resulting in a clean, flawless finish for frames.

CINTA DE PAPEL KRAFT

La cinta de papel kraft es reconocida por su alta adhesión y resistencia, lo que la convierte en una opción ideal para acabados de cuadros y para embalaje en general. Su aplicación manual es sencilla y proporciona un acabado limpio e impecable en las molduras.

COLA PARA JUNÇÃO DE MOLDURAS

Perfeito para unir molduras de madeira, nossa fórmula à base de PVA acelera significativamente o processo de cura, proporcionando uma montagem mais ágil e eficiente.

WOOD FRAME GLUE

Perfect for joining wooden frames, our PVA-based formula significantly accelerates the curing process, enabling faster and more efficient assembly.

PEGAMENTO PARA FIJACIÓN DE MOLDURAS

Perfecto para unir molduras de madera, nuestra fórmula a base de PVA acelera significativamente el proceso de secado, proporcionando un montaje más ágil y eficiente.

Cola para junção 1Kg

Glue for joining mouldings 1Kg (35,27 oz)

Pegamento para fijación de molduras 1Kg

MASSA PARA ACABAMENTO EM MOLDURAS

Para corrigir as imperfeições nas junções das molduras, nossa massa de acabamento possui secagem rápida que preenche sem contrair, criando uma superfície nivelada e sem rachaduras. Essa massa permite a aplicação de acabamentos à base de água ou solvente.

WOOD PUTTY FORM FRAME FINISHING

To correct imperfections at frame joints, our finishing putty features quick drying that fills without shrinking, creating a level, crack-free surface. This putty allows the application of water-based or solvent-based finishes.

MASILLA PARA ACABADO EN MOLDURAS

Para corregir las imperfecciones en las uniones de las molduras, nuestra masilla de acabado de secado rápido rellena sin contraerse, creando una superficie nivelada y libre de grietas. Esta masilla permite la aplicación de acabados a base de agua o solvente.

TUBEX DE POLIETILENO

Tubo isolante de polietileno, o Tubex é a solução mais prática e segura para proteção das molduras, contra impactos, evitando acidentes. Além disso, é reciclável, atóxico e inerte, não risca, não desprende partículas e não interage quimicamente. Em dois tamanhos de 35 e 54mm, com 10 mm de espessura, garante eficiência e segurança no manuseio e transporte.

POLYETHYLENE TUBEX

A polyethylene insulating tube, Tubex is the most practical and safe solution for protecting mouldings against impacts, preventing accidents. In addition, it is recyclable, non-toxic, and inert; it does not scratch, shed particles, or react chemically. In two sizes, 1 3/8" (35 mm) and 2 1/8" (54 mm), with 3/8" (10 mm) thickness, it ensures efficiency and safety in handling and transport.

TUBEX DE POLIETILENO

Tubo aislante de polietileno, el Tubex es la solución más práctica y segura para la protección de molduras, evitando impactos y accidentes. Además, es reciclable, atóxico e inerte: no raya, no desprende partículas y no interactúa químicamente. Disponible en dos tamaños, de 35 mm y 54 mm, con 10 mm de espesor, garantiza eficiencia y seguridad en la manipulación y transporte.
